WILL INCREASE PRODUCTION OF MOTORS;  
ELECTRIFICATION, PETROLEUM PRODUCTION SPEEDED

TO MAKE NEW TYPES OF EQUIPMENT -- Slovenski Porocevalec, No 92, 17 Apr 50

The "Rade Koncar" Enterprise will begin the serial production of electric motors with a capacity of over 100 kilowatts very soon. Two such motors were delivered last year to the "Jugovinil" Factory in Split. The factory will also produce special motors for the operation of large pumps for reclamation, which are being constructed by the "Litostroj" Enterprise, and special electric motors for petroleum-drilling equipment. This year the enterprise will also produce new types of switches, engine starters, and fixtures for automatically disconnecting transformers. It will soon produce complete equipment for the installation of new hydroelectric power plants and distribution nets.

PRILEP-BITOLJ HIGH-TENSION POWER LINE COMPLETED -- Nova Makedonija, No 1653, 29 Apr 50

Prilep, 29 April -- The 40-kilometer Prilep-Bitolj high-tension power line was completed 32 days ahead of schedule, the transformer station in Prilep was completed 10 days ahead of schedule, and the transformer station in Bitolj 33 days ahead of schedule.

Power amounting to 35,000 kilowatts will flow through the power line, but in the Bitolj transformer station the tension will be increased to 35,000 volts, and in the Prilep station reduced from 35,000 to 3,300 volts.

The power line is suspended from 18 concrete towers between the two cities. ..

POWER PLANT OPERATING AT CAPACITY -- Slovenski Porocevalec, No 100, 26 Apr 50

On 24 April 1950 the second generator unit began operation in the "Savica" Hydroelectric Power Plant on the Savica River in Slovenia.

The power plant now operates at full capacity, i.e., at 3,600 kilowatts, and from now on will produce 16 million kilowatt-hours of power a year.

PETROLEUM DRILLING UNSUCCESSFUL -- Pobjeda, No 104, 1 May 50

Drilling for petroleum on Ulcinjsko Polje in Montenegro began in April 1950; however, to date no petroleum has been found.

In 1949, the index of Yugoslav petroleum production was 172, and in 1950 it will be 484 (1948 = 100).

In 1946, the index of Yugoslav petroleum refining was 102, in 1947 201, in 1948 680, in 1949 1,680, and in 1950 it will be 2,200 (1945 = 100).
